

# UNILAV

## REVOLUTIONIZING THE LAVATORY EXPERIENCE

**DIEHL**  
Aviation

## CHARACTERISTICS

Diehl Aviation introduces a smart lavatory experience for both passengers and operators. Our innovation raises hygiene standards and improves efficiency of use. Imagine seamless, contactless utilization of the entire lavatory, from entry to exit. Our approach emphasizes cost-effective, standardized, and modular design, tailored to meet operational needs. Furthermore, our solution seamlessly integrates into the smart cabin network, enhancing overall efficiency and passenger satisfaction.

## BENEFITS

- Touchless utilization from entry to exit
- Supports predictive health monitoring
- Smart mirror for flight information and advertisement
- Instantaneous monitoring
