

# eSMART BIN

## EFFICIENT CABIN MANAGEMENT

**DIEHL**  
Aviation

## CHARACTERISTICS

Diehl Aviation's eSmart Bin represents the pinnacle of intelligent cabin management solutions. It integrates seamlessly into the smart cabin network, enhancing the overall efficiency of cabin management. The eSmart Bin facilitates organized boarding with small screens displaying seat numbers and an illuminated exterior display showing bin fill levels. Ideal for all A350 operators with the handrail light option, the eSmart Bin is also an attractive solution for equipment upgrades and other aircraft programs, including single aisle configurations.

## BENEFITS

- Bin booking with small screens showing seat number
- Bin fill level measurement, shown on hand rail light
- Integrated into smart cabin network, retrofittable to A350 (with HRLT)
- All A350 operators with hand rail light option, or as equipment or other programs (single aisle)
